

4H I Endocrine Objectives

- 9** The function of thyroid hormones is to:
- A Assist with carbohydrate metabolism.
 - B Promote water excretion.
 - C Provide for fatty deposits.
 - D Stimulate cellular metabolism.
- 10** TSH is secreted by the pituitary and acts on the:
- A Pancreas.
 - B Testes.
 - C Thymus gland.
 - D Thyroid gland.
- 11** The endocrine gland that is located in front of the trachea is the:
- A Adrenal gland.
 - B Thymus gland.
 - C Pituitary gland.
 - D Thyroid gland.
- 12** The chemical substances secreted by endocrine glands are:
- A Electrolytes.
 - B Endoclasts.
 - C Enzymes.
 - D Hormones.
- 13** Which endocrine gland is located in the cranial cavity?
- A Adrenal
 - B Parathyroid
 - C Pituitary
 - D Thymus
- 14** Which endocrine glands are located above the kidneys?
- A Adrenal
 - B Ovaries
 - C Testes
 - D Thyroid
- 15** Which endocrine gland is normally located in the pelvic cavity?
- A Ovary
 - B Parathyroid
 - C Testis
 - D Thyroid
- 16** The endocrine gland located in the thoracic cavity is the:
- A Pancreas.
 - B Pituitary.
 - C Thymus.
 - D Thyroid.
- 17** Hormones are classified as:
- A Cells.
 - B Chemicals.
 - C Ions.
 - D Microbes.
- 18** The pancreas is located in the:
- A Abdominal cavity.
 - B Pelvic cavity.
 - C Cranial cavity.
 - D Spinal cavity.

AH I Endocrine Objectives

- 28** Which of the following is **NOT** a common symptom of Cushing's Syndrome?
- A Buffalo hump on the upper back
 - B Enlargement of the thyroid gland
 - C Elevated blood sugar levels
 - D Moon face
- 29** What synthetic hormone could be given to a pregnant woman to cause her to go into labor?
- A Estrogen
 - B Insulin
 - C Oxytocin
 - D Testosterone
- 30** Marilyn has a blood sugar of 100 milligrams. Her blood sugar level is:
- A Extremely high.
 - B High.
 - C Low.
 - D Normal.
- 31** A typical screening procedure for diabetes mellitus is:
- A Cardiac catheterization.
 - B Lumbar puncture.
 - C Thoracentesis.
 - D Urinalysis.
- 32** A lack of insulin leads to:
- A Anuria.
 - B Hyperglycemia.
 - C Leukocytosis.
 - D Photophobia.
