

4.02 What do you think happened?
Handout

Name _____
Date _____

Directions: Read each scenario. Based on your understanding of the structure and function of the urinary system, what do you think has happened?

1. Taylor is on the track team at school. After running a mile on a very hot day, Taylor went to the bathroom to urinate, and was concerned that there was a very small amount urine and the color was deep amber. Explain why this happened.

2. Carlos was playing football and was hit pretty hard in his right flank area. Later that night, when he urinated, he noticed the water in the toilet bowl was light pink. What could have caused this? Should he be alarmed? Explain your answer.

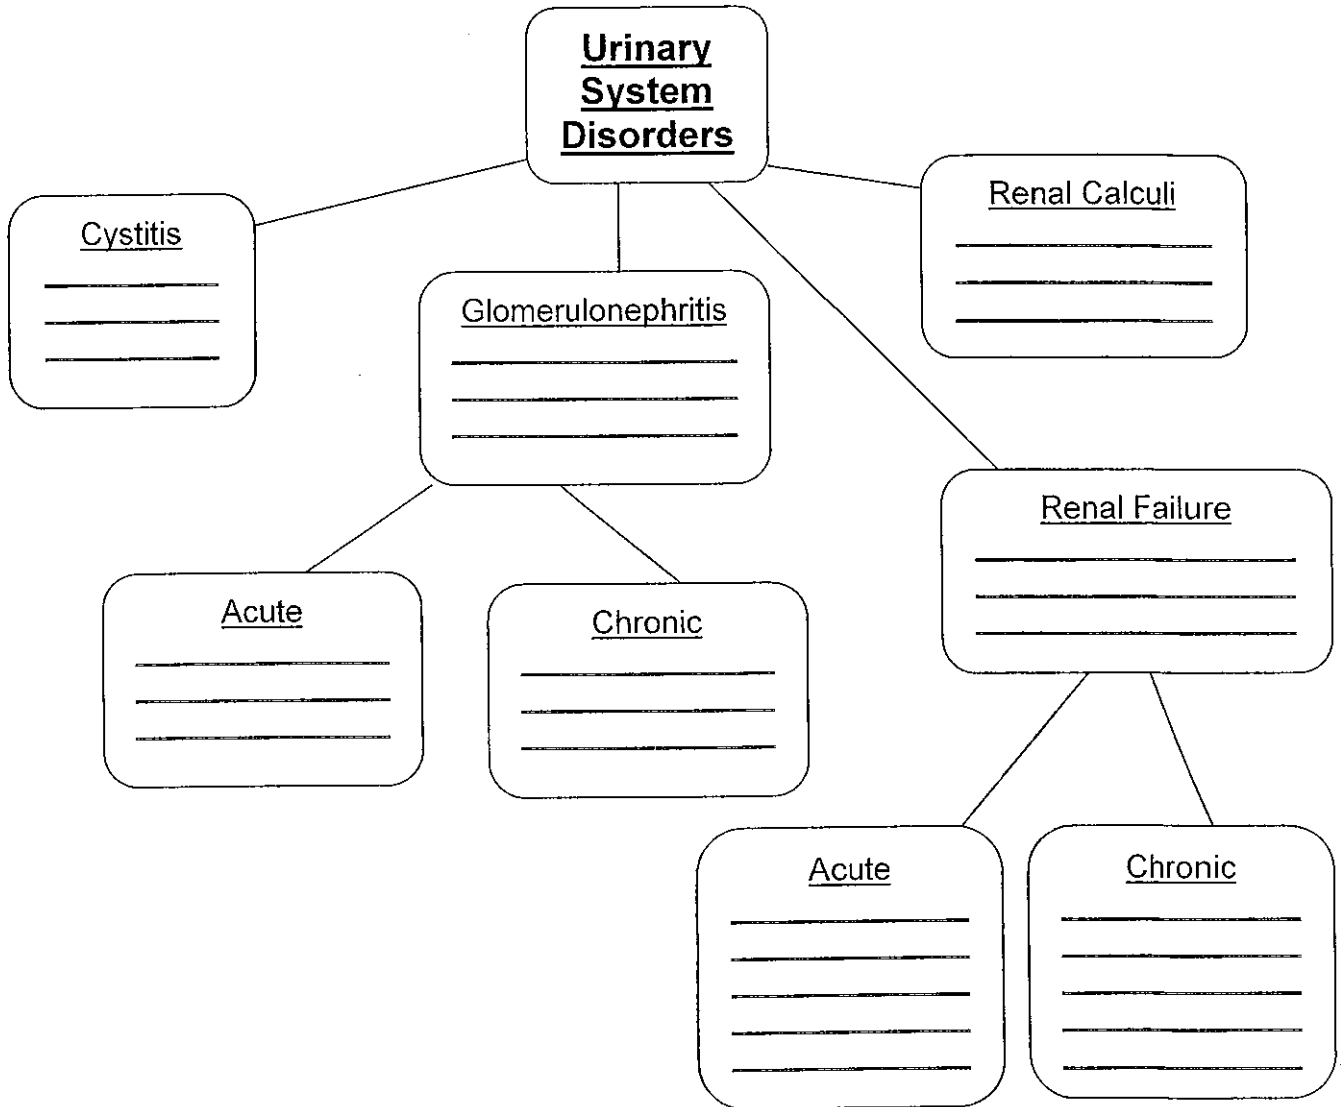

3. Carla's grandmother had a CVA and was hospitalized. When Cara went to visit her grandmother, and saw a clear plastic bag filled with urine hanging on the side of the bed. A tube leading from the bag went to her grandmother. Why does Carla's grandmother have this device? What purpose does it serve?

4. Whitney went to camp. After a few days there, she began to have dysuria, and noticed that her urine smelled unusual and was cloudy. What might her symptoms indicate?
